

Coast Live Oak

Quercus agrifolia

02-29

<u>Hardiness</u>	<u>Exposure</u>	<u>Soil</u>	<u>Water</u>	<u>Flowers</u>	<u>Height</u>
Zone 7-9, 14-24	Full sun	Regular irrigation during dry spells	Has greedy roots	Acorns after inconspicuous flowers	20 -70 feet

One of the most common trees that you will see driving the roads of California in rural areas are oaks. Many of these trees are hundreds of years old. They are the dominant plants in many habitats. The wildlife of California depend heavily upon oaks. If we break down the state into sections where different types of oaks live, you can see the species of oak that you may commonly encounter in your
