

## Night Blooming Jasmine *Cestrum Nocturnum*

03-24

<u>Hardiness</u>	<u>Exposure</u>	<u>Soil</u>	<u>Water</u>	<u>Flowers</u>	<u>Height</u>
Zones 13, 16-24, H1, H2	Full sun for best bloom	Respond well to good feeding and organic soil amendments	Regular watering	Powerfully fragrant at night, white summer blossoms	To 12 feet tall

*This sprawling shrub has glossy, smooth, simple leaves 4"-8" long. Vine-like stems reach up to 12' in its native habitat, but it seldom reaches more than a 4' mound in a single season. It blooms in cycles throughout warm weather. Greenish-creamy white tubular flowers rise from above leaves along the stem, followed by shiny white, fleshy berries. Although the flowers are not showy to the eye, their sweet scent can overpower.*

**\*\* Fruit and sap are poisonous if ingested**
