

## Verbena Babylon White

*Verbena Babylon*

03-94

<u>Hardiness</u>	<u>Exposure</u>	<u>Soil</u>	<u>Water</u>	<u>Flowers</u>	<u>Height</u>
Zones 7-11	Full sun or partial sun	Adaptable	Regular watering	Clustered white	6-8 inches

*Babylon is new series of Verbena that blooms earlier than the other verbena varieties on the market. The Babylon series also has good mildew resistance. These are broadleaf Verbenas with a dense, creeping growth habit that doesn't need to be prune, pinched, or deadheaded to hold it's form. One of the attributes of the Babylon series is that they hold their true color. This cultivar has a bright white flower that is sure to brighten up any garden. Great in mixed containers or as a groundcover. When in containers these will use more water than if in a landscape, this is a high nitrogen feeder.*
