Blue Violet, Babylon Pink Verbena *Verbena Tapien*

05-40

<u>Hardiness</u>	<u>Exposure</u>	<u>Soil</u>	<u>Water</u>	<u>Flowers</u>	<u>Height</u>
Zones 4-9, 12-24, H1, H2	Full sun	Well drained soil	Regular watering	Wide range of colors from pink, lavender, pale blue, deep purple, and red	Prostrate plant to 4 inches high

These Verbena Sisters will thrive where other varieties fail. Both types got their vigour and disease resistance from wild tropical cousins discovered in South America and used in their breeding. They are absolutely amazing tumbling from containers or spilling across borders and mix well with other plants, putting on a colour-filled show. Supplied in pack of 6 chunky plug plants. Available between Mid-March to Mid-May. Advanced ordering is recommended and orders placed outside this period will be fulfilled the following season.
