Thompson Grapes *Vitis vinifera*

09-29

<u>Hardiness</u>	<u>Exposure</u>	<u>Soil</u>	<u>Water</u>	<u>Flowers</u>	<u>Height</u>
Zones 4-9, 14-23	Full sun or partial shade	Deep enriched, sandy soil	Moderate to regular watering	Insignificant	To 20 feet or more

One of the most popular varieties in the U.S., the Thompson's light green color, oval-shaped berries and sweet taste are a favorite among many. In the store, look for grape bunches that are well colored with plump berries well attached to the stems. The grapes you buy in the store should be ripe and ready to eat; they will not continue to ripen after they are picked from the vine. Simply refrigerate your grapes without washing them. Grapes should keep for about seven days in 30-40° F. Once you're ready to enjoy your grapes, rinse with cool water.
